

12-fiber 8-electric switch industrial grade

Overview

Featuring Plug and Play designed to be installed in heavy industrial demanding environments, PLANET IGS-1020PTF-12V is an Industrial-grade, DIN-rail type Unmanaged Gigabit Ethernet PoE+ Switch with eight 10/100/1000BASE-T ports featuring IEEE 802.3at PoE+ and two 100/1000BASE-X. Benefit from industrial AI and software-defined automation, thanks to a reliable, low-jitter, high-bandwidth network that prioritizes time-sensitive data so that you can optimize production, increase productivity, and reduce downtime. 3at PoE+ and two 100/1000BASE-X fiber optic interfaces for uplink connection. Note: ALL Industrial Switches do NOT include a power supply. Install this powerful network switch to fit tough industrial environments, get a manageable network system with redundancy via simple. Industrial-grade Ethernet Switches are specifically designed to connect devices in network environments that are subject to extreme operating temperatures of -40°C to 75°C, vibrations, and shocks.
