

Austrian fiber optic sensors available for immediate supply

AI Overview

Several Austrian suppliers, including Sensorik Austria, Farnell Austria, Schmachtl, and Sensorwell, offer fiber optic sensors for immediate supply across industrial and scientific applications. Key Suppliers and Offerings

Sensorik Austria provides high-performance fiber optic sensors suitable for object detection, color recognition, material recognition, and moisture measurement. Their sensors are robust, compact, and designed for harsh environments, including high temperatures, heavy contamination, and potentially explosive areas (ATEX) with fiber optic lengths up to 25 meters. They are ideal for applications where conventional sensors are insufficient, offering long detection distances and high resistance to contamination (Sensorik Austria).

Farnell Austria offers a wide range of fiber optic sensors with fast quotes, same-day dispatch, and technical support. Their inventory includes sensors for position, size, and physical property detection, as well as specialized sensors for HVACR and oil-pressure applications. Farnell emphasizes rapid delivery and availability for immediate supply (Farnell Austria).

Schmachtl provides fiber optic sensors integrated into automation, robotics, and process measurement systems. Their solutions are suitable for industrial automation, environmental monitoring, and process control, offering customized sensor solutions for specific applications (Schmachtl).

Sensorwell acts as a distribution partner for multiple international brands, including Honeywell, Proxitron, Azbil, Sensata, and Datalogic. They offer over 60,000 products, including fiber optic sensors, with options for customer-specific adaptations and immediate supply. Sensorwell provides technical support and project planning assistance for industrial and automation applications (Sensorwell).
