

Bulgarian fiber optic cable construction company

AI Overview

Bulgaria hosts several fiber optic cable manufacturers and suppliers, including Cimler Ltd., Opticom Ltd., and CableCom Ltd., offering high-performance production equipment, assembly lines, and testing facilities.

Key Manufacturers and Facilities

Cimler Ltd. is a Bulgarian manufacturer specializing in high-quality fiber optic cables. Their production plant, operational since early 2025, is equipped with advanced assembly lines, interferometers, polishing machines, ovens, and laser engraving tools to ensure precise testing and high-quality results. They produce a wide range of indoor and outdoor fiber optic cables, including flat drop, self-supported, armored, and flexible models suitable for FTTH, broadband, industrial, and telecom applications. Cimler follows strict three-stage quality control and is certified by R&M Lab (Certificate №2100-2506, June 2024) to meet international standards.

Opticom Ltd. provides fiber optic cables along with consulting, design, splicing, and testing services. They represent global brands such as Sumitomo, EXFO, Trend Network, and Euroclust in Bulgaria, offering access to high-end equipment for optical communications, line testing, and damage localization.

CableCom Ltd. focuses on structured cabling systems and fiber optic installations. They supply and install equipment for state, petrochemical, and energy sectors, emphasizing high-performance solutions and direct partnerships with world manufacturers. Their team is certified in leading structured cabling systems, ensuring professional installation and integration of fiber optic networks.

Equipment and Capabilities

Bulgarian factories and suppliers provide a range of fiber optic cable equipment, including:

- Cable assembly lines for producing various fiber types and configurations.
- Splicing and connectorization tools for precise fiber connections.
- Testing and measurement equip...
