

Bulgarian quality electrical distribution boxes available now

AI Overview

Borels and EMA Group are among the top Bulgarian manufacturers of high-quality electrical distribution boxes, offering durable, flame-resistant, and weatherproof solutions suitable for industrial and residential applications.

Borels Electrical Distribution Boxes Borels specializes in outdoor and indoor electrical cabinets made of flame-retardant and UV-resistant polyester reinforced with 27% glass fiber, providing excellent durability and chemical resistance. Their boxes are available in multiple sizes, suitable for energy distribution, electric and gas meters, photovoltaic systems, and telecommunication installations. Key features include: IP65 protection, ensuring resistance to dust and water. Flame and impact resistance, suitable for harsh environments. Temperature tolerance from -25°C to +200°C. Color options: grey (RAL 7000), beige (RAL 7032), black (RAL 9005), and transparent polycarbonate lids. Reinforced mounting plates, either plastic or hot-dip galvanized. These boxes are widely used in industrial, petrochemical, mining, and construction sectors, making them a reliable choice for demanding applications.

EMA Group Electrical Panels EMA Group, based in Plovdiv, Bulgaria, focuses on low and medium voltage electrical systems, including switchboards up to 6300 A, transformer stations, and smart home automation systems. Their distribution boxes are part of a broader offering that includes: Design, manufacturing, and installation of electrical systems. Integration with energy storage and photovoltaic systems. Thermographic inspection and power quality analysis for safety and efficiency. EMA Group is ideal for industrial and commercial projects where high-capacity and customized solutions are required.
