

# Color of Red Brick Distribution Box

## AI Overview

The red brick distribution box is typically colored Brick Red, corresponding to RAL 040 40 40, HEX #cb4154, or RGB (203, 65, 84). Color Specifications RAL Design System: Brick Red is represented as RAL 040 40 40, a standard used in industrial and architectural applications for consistent color matching. HEX Code: #cb4154, which is widely used in digital design and web applications. RGB Values: Red 203, Green 65, Blue 84, giving a warm, moderately dark red appearance. CMYK Values: 0% cyan, 68% magenta, 58.6% yellow, 20.4% black, suitable for printing and physical reproduction. HSL/HSV: Hue 351.7°, Saturation 57%, Lightness 52.5%, indicating a warm, visually striking red. Visual Characteristics Brick Red is a warm, moderately dark red that evokes a traditional brick tone. It has a low Light Reflectance Value (LRV) of around 14, meaning it absorbs more light and appears darker compared to lighter reds. This color is commonly used for distribution boxes to ensure visibility while maintaining a professional, industrial look. Practical Notes When matching or painting a distribution box, it is recommended to use a physical RAL color fan to ensure accuracy, as digital screens may not display the color authentically. Brick Red is visually compatible with neutral tones and can be paired with darker or lighter reds for design consistency. The color is warm and attention-grabbing, making it suitable for outdoor utility equipment where visibility is important. In summary, the red brick distribution box is colored Brick Red, a warm, moderately dark red with RAL 040 40 40, HEX #cb4154, and RGB (203, 65, 84), providing both industrial standardization and visual prominence.
