

Complete set of Greek electrical distribution boxes

AI Overview

Greek electrical distribution boxes are available in a wide range of materials, sizes, and protection ratings, suitable for residential, commercial, and industrial applications. Types and Materials Greek manufacturers offer distribution boxes and enclosures in various materials: Polyester SMC / GRP / FRP: Durable, weather-resistant, and suitable for outdoor use, including single and three-phase meter boxes, underground distribution boxes, and smart meter enclosures (Armet) . Metal Cabinets: High-quality cold-rolled steel enclosures for industrial applications, machine tool control, and automation systems, often customizable with accessories like busbar supports and distribution blocks (IDE Electric) . Plastic and Halogen-Free Materials: Used for low-voltage applications, offering IP44 to IP67 protection and amperage ranges from 10 to 125 A, and voltages from 24 to 500 V . Standards and Certifications Most Greek distribution boxes comply with international standards such as EN/IEC, ISO, DIN, and ASTM. Companies like Armet are ISO 9001 certified, ensuring quality and reliability . Protection ratings (IP44, IP54, IP67) guarantee safety against dust and water ingress, suitable for both indoor and outdoor installations . Suppliers and Manufacturers Several Greek companies specialize in electrical distribution equipment: Armet: Offers a wide range of SMC/GRP/FRP meter boxes, cabinets, and smart meter enclosures . GEYER: Focuses on low-voltage distribution boards and miniature circuit breakers . Fiber Optic PES: Provides medium and low-voltage distribution solutions, including substations . Anixter Greece: Supplies electrical enclosures for various applications . IDE Electric: Customizable metal and polyester cabinets for industrial and automation systems . Additional suppliers and manufacturers can be found through directories listing over 25 companies in Greec...
