

Construction Distribution Box Fusion Core

AI Overview

A fiber optic distribution box with fusion core is a protective enclosure that manages, splices, and distributes optical fibers in FTTH or FTTX networks. Overview A fiber optic distribution box serves as a termination and distribution point for optical cables, connecting feeder cables to drop cables. It integrates fusion splicing, splitting, storage, and cable management into a single unit, ensuring organized and protected fiber connections. These boxes are essential for FTTH last-mile installations, local area networks, and data communication networks.

Core Capacity and Types

- 4-Core Boxes:** Compact units suitable for small-scale installations, supporting 4 fibers with SC adapters and fusion splice trays.
- 12-Core Boxes:** Mid-range capacity, accommodating up to 12 fibers, with flip-up distribution panels and cup-joint feeder placement for easy maintenance.
- 24-Core Boxes:** Larger units for medium deployments, integrating reinforced ABS material, IP65 protection, and dedicated paths for cables, pigtailed, and patch cords.
- 48-Core Boxes:** High-capacity boxes for large-scale FTTX applications, supporting multiple splitters, splices, and SC ports, suitable for indoor or outdoor use with weatherproof design.

Key Features

- Fusion Splice Tray:** Provides secure and organized splicing of optical fibers.
- Cable Management:** Separate paths for feeder cables, drop cables, and patch cords prevent tangling and interference.
- Protection:** Enclosed ABS or reinforced ABS construction ensures waterproof, dustproof, and anti-aging properties, often rated IP65 for outdoor durability.
- Installation Options:** Supports wall-mounted or pole-mounted setups, adaptable to indoor and outdoor environments.
- SC Adapter Compatibility:** Cassette-style or flip-up panels simplify installation and maintenance of SC adapters and patch cords.
- Splitter Integration:** Some boxes allow integration of PLC splitters for optical signal distribution.

Applications

- FTTH/FTTX Networks:** Termination and distribution of optical fibers to subscribers.
- Data Communication Networks:** Centralized manageme...
