

# Custom-made cable trays from Australia

## AI Overview

Australia offers a range of high-quality cable trays from leading manufacturers like EzyStrut, Burndy CSS, Axelent, Brilltech, and Ozstrut, suitable for industrial and commercial applications. Leading Manufacturers and Their Offerings EzyStrut is one of Australia's most prominent cable tray manufacturers, providing ladder trays, solid-bottom trays, and wire mesh trays. Their products are designed for durability, versatility, and compliance with Australian standards, suitable for sectors such as mining, telecommunications, and construction. EzyStrut trays are available in pre-galvanised steel, hot-dip galvanised steel, and aluminium, with options for fire-rated and custom-designed solutions. Axelent specializes in the X-Tray system, which integrates cable management with machine guarding solutions, offering black wire trays with smart mounts for industrial and warehouse environments. ACURA Group, based in Adelaide and Perth, supplies cable trays, ladders, and mesh baskets for commercial and industrial projects. They offer hot-dip galvanised trays for outdoor or high-corrosion environments, perforated trays for lightweight cables, and fire-rated options for compliance. Ferrotech Pacific and Burndy CSS also provide a wide range of cable trays and support systems, catering to both standard and specialized project requirements. Key Considerations When selecting cable trays in Australia, consider: Material and corrosion resistance: Steel, aluminium, or galvanised options for indoor/outdoor use. Tray type: Ladder, solid-bottom, or mesh depending on cable type and airflow requirements. Compliance: Ensure products meet Australian standards such as AS4680:2006 for galvanised steel. Customization: Some manufacturers offer bespoke solutions for high loads, unusual installations, or fire-rated requirements. These manufacturers provide reliable, durable, and versatile cable management solutions suitable for a wide range of industrial, commercial, and specialized applications in Australia.
