

Democratic Republic of Congo Server Rack Micro-Module Data Center Brand

Overview

Launched in 2024, Raxio DR Congo is a state-of-the-art, carrier-neutral Tier III facility located along key fibre routes. With capacity for 400 racks and 1.5 MW of IT power, it offers 24×7 operations, full redundancy, and seven layers of physical security. The DR Congo is one of Africa's largest and fastest-growing markets, with demand for digital products and services forecasted to soar in the coming years with new subsea cables landing and expansion of inland terrestrial fibre networks. With daily internet traffic doubling, and more companies. Africa's leading carrier-neutral Tier III data center operator Raxio Group has officially inaugurated in Kinshasa its state-of-the-art data centre, Raxio DRC1, the group announced on August 22. This marks a significant milestone in the Democratic Republic of Congo's digital transformation. OADC Texaf Digital Kinshasa — the country's first Tier III carrier-neutral data centre, 1,500 square metres of white space, 550-plus racks, hydro-powered with low PUE — came online in 2024 and changed the DRC enterprise IT. If you are searching for a highly reliable, enterprise-grade server shop near me in Democratic Republic Of Congo, we are widely recognized across the IT industry as one of the best authorised dealer networks and the top-ranked authorised whole seller for premium data center infrastructure brands in. Company says 1. First announced in March 2021, the company this week held a ground-breaking ceremony for what the.
