

Denmark Fireproof Cable Tray Custom Manufacturer

AI Overview

Key manufacturers in Denmark for fireproof and sealed cable trays include SILTEC, Real Safety, and Meka Pro, offering solutions for industrial, offshore, and commercial applications. SILTEC provides stainless steel cable trays that are corrosion-resistant and highly durable, suitable for indoor and outdoor installations. Their trays come in various sizes, from 25 mm to 600 mm in width and 25 mm to 125 mm in height, with lengths of 3000 mm. SILTEC also offers patented lockable cable trays, which allow easy access for maintenance while keeping cables secure, making them suitable for fire-resistant and safety-critical installations. Real Safety Based in Esbjerg, Denmark, Real Safety specializes in FRP (fiber-reinforced plastic) cable trays and non-metallic construction materials. Their solutions are designed for high safety standards, including offshore and industrial environments. Real Safety provides customized, fire-resistant cable tray systems, with ISO 9001 certification and compliance with national and international standards. They offer full support from design and prototyping to manufacturing, testing, and installation. Meka Pro focuses on fire-resistant cable support systems tested according to EN 1363-1 standards. Their products ensure that electrical supply remains functional during a fire and that cable management systems withstand load without collapsing. Meka Pro offers over 1200 fire-tested standard products, emphasizing safety, compliance, and cost-effective installation. Their systems are suitable for critical infrastructure, industrial plants, and public buildings. Additional Considerations Flampro provides fire protection coatings and tapes for cables and trays, enhancing fire resistance and environmental durability, which can complement tray systems in high-risk areas. DKC Europe offers a broad range of cable tray systems and energy distribution solutions...
