

Dominic High Voltage Complete Equipment

Overview

Domino Highvoltage offers a complete range of PPE, pole line hardware, and utility supplies for transmission, substations, and distribution (both overhead (OH) and underground (URD)). © 2026 Domino Highvoltage Supply Inc. GGD is a Fixed Complete-set Switchgear Equipment with simply and flexibly. GHS168 is our company absorbing foreign technology and developed the design of the low-voltage drawer-type switch equipment. We know that time is of the essence in the power & electrical industry, and keep key products stocked. Out of stock products are aggressively sourced for short-duration. Our high and low voltage complete electrical equipment solutions are designed based on a deep understanding of the current development trends in the power industry and accurate predictions of future power demand. As a supplier with a global reach, we have built our reputation as a leader in the industry by being responsive to our customers' needs. Whether supplying tools and materials in a timely manner or. The Complete Series of products is tailored for modern power systems, featuring High Voltage Switchgear, Low Voltage Switchgear, Gas-Insulated Switchgear, Ring Main Units, and Transformer Substations.
