

Duolun Cable Tray Price Inquiry

AI Overview

Duolun cable tray prices typically range from \$0.80 to over \$76 per unit depending on type, material, and order volume. Price Ranges and Market Context Cable trays, including those from Duolun, vary widely in price based on material, design, and application. For industrial and commercial applications, prices generally range from \$0.80 to \$76 per unit when purchased in bulk, with higher-end trays made from stainless steel, aluminum, or fireproof FRP commanding premium pricing due to durability and compliance with safety standards. For smaller-scale or B2C purchases, prices can be as low as \$0.92 to \$34, typically for lightweight or under-desk solutions.

Factors Affecting Cost

Material: Stainless steel and aluminum trays are more expensive but offer corrosion resistance and long-term reliability, while FRP trays are lightweight and non-conductive.

Tray Type: Ladder trays, perforated trays, solid-bottom trays, and channel trays differ in cost due to structural complexity and intended load capacity.

Load Capacity and Size: Heavier-duty trays for industrial plants or data centers cost more than smaller trays for control panels or instrumentation circuits.

Customization and OEM Options: Factory-direct or OEM orders can provide tailored solutions but may affect pricing depending on specifications.

Volume Discounts: Bulk orders typically reduce per-unit cost, especially for B2B procurement.

How to Obtain Duolun-Specific Pricing

Contact Suppliers Directly: Reach out to verified Duolun distributors or manufacturers for quotes, specifying tray type, material, and quantity.

Request OEM or Bulk Quotes: For large projects, requesting a factory-direct quote can provide cost savings and ensure compliance with project requirements.

Compare Online Marketplaces: Platforms like Alibaba or Made-in-China list multiple suppliers offering competitive pricing for similar cable trays.

Summary While exact Duolun cable tray prices depend on specifications and order volume, expect a range from under \$1 for small-scale trays to over \$70 f...
