

Fireproof cable tray quote

AI Overview

Fireproof cable trays are available in steel, aluminum, and fiberglass, with fire ratings up to 2 hours, and pricing varies based on material, size, and supplier.

Types and Materials

Fireproof cable trays come in several materials, each offering different benefits:

- Steel (galvanized or stainless):** High strength, excellent fire and corrosion resistance, suitable for industrial and commercial installations.
- Aluminum:** Lightweight, corrosion-resistant, and provides EMI shielding for sensitive electronics.
- Fiberglass Reinforced Plastic (FRP):** Non-corrosive, fire-resistant, and low-maintenance, ideal for chemical, offshore, or harsh environments.

Fire Ratings and Standards

These trays are designed to maintain structural integrity during fires, ensuring critical systems like emergency lighting, fire alarms, and building management systems remain operational. Common certifications and standards include: ISO 834-1, EN 1363-1, DIN 4102-12, AS/NZS 3013:2005 for fire resistance. UL 1724 and NFPA 70 (NEC compliance) for industrial applications. Fire ratings can reach 2 hours at temperatures up to 1050°C.

Specifications

Typical fireproof cable trays feature:

- Lengths:** 3 meters per section
- Width:** 150 mm laying width
- Load capacity:** 10 kg/m on a 1.65-meter span
- Coatings:** Intumescent paints or fire-resistant powders to delay heat transfer

Pricing Considerations

Pricing depends on material, fire rating, load capacity, and supplier. Steel trays are generally more cost-effective for standard industrial use, while FRP trays may have higher upfront costs but lower maintenance and longer lifespan. Wholesale options are available, and minimum order quantities (MOQs) can range from 10 to 100 meters, depending on the supplier.

Supplier Options

NewReach: Offers fire-rated trays with FLAMMOTECT-A and DG-CR 0.7 technologies, powder-coated aluminum, galvanized steel, and fiberglass options.

CanHopeSteel: Provides WBJ Series fire-resistant steel trays suitable for chemical, petroleum, and metallurgical environments, with fast quotation services.
