

Four-port FC fully equipped fiber optic terminal box

Overview

This 4-port fiber optic termination box from Bojan is fully equipped to handle SC, FC, or LC adapters, offering versatility for various connection needs. Engineered for durability and easy installation, it features a compact desktop design with an integrated cable management. The 4 port metal fiber termination box is designed for connecting the optical fiber cable with pigtail to realize splicing and termination within building entrance locations and other indoor environments. It is a cost-efficient wall mount fiber patch panel for low-density fiber cabling, especially. FTB104B is a newly developed by our company for application of FTTH. It provides a protective connection between the optical cable and the distribution pigtail. Insulate the metal components of the optical cable from the cable end shell, provide space for the placement of the optical cable. Youysi 4-port sc fully equipped with fc single-mode fully equipped with st multi-mode optical fiber terminal box: carrier-grade quality, light-speed connection, a must-have for home/enterprise! Youysi 4-port sc fully equipped with fc single-mode fully equipped with st multi-mode optical fiber. This 4 port Indoor Wall Mounted FTTH Optical Fiber Distribution Box Termination Enclosure is used for splicing and termination between indoor SC LC FC fiber optic cable and pigtails.
