

GPON Optical Module Price List

AI Overview

GPON optical modules range from approximately \$20 to \$150 per unit depending on type, manufacturer, and purchase volume. Price Overview by Manufacturer and Type

Huawei GPON Modules: Prices vary by module class and interface. For example, Class C+ SFP modules for 16-port OLT boards are commonly listed in the mid-range, while advanced 10G GPON SFP+ modules for 8-port OLT boards are higher in price due to enhanced performance.

ZTE and HSGQ GPON OLT Modules: Factory and wholesale prices for FTTH networks with 1:128 splitting and 10G uplinks are available, typically ranging from \$50 to \$120 per module depending on specifications and certification.

GPON ONU Modules: Retailers like XponShop offer Huawei, ZTE, Nokia, and FiberHome ONU modules, with prices generally starting around \$20-\$40 for standard SFP modules and increasing for higher-capacity or multi-service modules.

Wholesale Options: Platforms like Made-in-China provide bulk GPON optical modules with cost advantages, allowing businesses to purchase large quantities at discounted rates. Prices depend on order volume, module type, and supplier reliability.

FiberMall Transceivers: Offers GPON/EPON SFP OLT/ONU and 10G XGSPON/XGPON modules, suitable for single-fiber bidirectional transmission. Prices vary by speed and compatibility, typically in the \$30-\$150 range.

Key Considerations

- Module Type:** SFP vs SFP+ modules differ in speed and compatibility; SFP+ modules are generally more expensive.
- Compatibility:** Ensure the module matches your OLT/ONU hardware and network requirements.
- Bulk Purchase:** Wholesale orders can significantly reduce per-unit cost.
- Supplier Verification:** Check certifications, production capacity, and client reviews to ensure quality and reliability.

For the most accurate and up-to-date pricing, it is recommended to request quotations directly from suppliers or authorized distributors, especially for bulk orders or specialized GPON modules.
