

Gabon Non-standard Explosion-proof Distribution Box Manufacturer

AI Overview

Non-standard explosion-proof distribution boxes for Gabon are available from suppliers like Broco and can be sourced via B2B marketplaces such as Indotrading, offering flexible installation options and competitive pricing.

Overview of Non-Standard Options Non-standard explosion-proof distribution boxes are designed for hazardous environments but may not conform to widely recognized global standards. In Gabon, these products are primarily sourced from international suppliers, including Indonesia, and are available in various configurations such as wall-mounted, floor-standing, or table-top models. Brands like Broco offer models that can be installed outside walls or on floors, with customizable features to meet specific site requirements.

Key Features

- Materials:** Typically made from durable metals or reinforced plastics to withstand harsh conditions.
- Installation Flexibility:** Options include wall-mounted, floor-mounted, or free-standing units.
- Components:** Equipped with cable glands, terminals, and other accessories, often customizable according to the investor's needs.
- Certifications:** While non-standard, many suppliers ensure compliance with basic safety requirements for explosive atmospheres, though they may not carry full ATEX or IECEx certification.

Alternative Certified Brands For comparison or higher assurance, certified explosion-proof brands suitable for hazardous zones include:

- HARDO:** Polish manufacturer offering aluminum and stainless steel terminal boxes certified for Zones 1, 2, 21, and 22, with customizable components.
- CZ Electric Co., Ltd.:** Chinese manufacturer providing ATEX and IECEx certified explosion-proof isolation switches, MCB boxes, and distribution boards.
- MARECHAL®:** Offers modular low-voltage enclosures suitable for extreme environments, including IP66/67 polycarbonate and metal options.
