

Gyta optical cable steel core

Overview

Deploy robust fiber networks underground with our GYTA53 Direct Buried Fiber Optic Cable. Featuring a Double Jacket (PE) and Double Armor (Aluminum + Steel) construction, this cable offers superior crush resistance and rodent protection, eliminating the need for protective conduits. gyta53, direct. GYTA is a type of fiber optic cable in stranded loose tube fiber optic cable with compact structure, and the cable jacket is made of strong Polyethylene. High strength loose tube has hydrolysis resistant. Cable filling materials ensure high reliability, and APL makes the cable crush resistant and. The 56EYAx series high-power optical amplifier is a high-power multi-port output fiber amplifier with a gain spectrum bandwidth of 1535~1565nm. It is mainly designed for applications of CATV. This cable comprises of a water blocking tape, a layer of corrugated steel tape armouring and PE outer jacket. Low dispersion and attenuation Proper design.
