

HP320 Spectrum Analyzer

Overview

Answer: The HP320 spectrometer is ideal for lighting engineers designing LED fixtures because it offers precise spectral analysis from 320nm to 780nm, real-time CCT and CRI measurements, and a compact, portable design that enables on-site testing under actual installation. Answer: The HP320 spectrometer is ideal for lighting engineers designing LED fixtures because it offers precise spectral analysis from 320nm to 780nm, real-time CCT and CRI measurements, and a compact, portable design that enables on-site testing under actual installation. The HP320 spectrometer provides accurate, portable spectral analysis from 320nm to 780nm, enabling reliable real-time measurements of CCT, CRI, and lux in diverse professional applications such as lighting design, retail, and plant research. What Makes the HP320 Spectrometer Ideal for Lighting. The HP320 Handheld Spectrometer is equipped with a 3.5-inch IPS touch screen, enhancing the convenience of field tests and ensuring accurate parameter analysis for effective color temperature and wavelength tolerance testing.

2. This user manual contains all the functions, operation methods, safety regulations and other technical information of the listed instruments. With its timing testing capabilities, this Handheld Spectrum Analyzer saves you valuable time by allowing verification through light. Portable Light Spectrometer HPCS310P HPCS330P PPFD Light PAR DLI Meter Flicker Test CCT Meter Ra Tester (HPCS330P with screen Wireless Bluetooth Connection, easy to use Comprehensive instruction manual for the HPCS330Pro HOPOOCOLOR Wireless Spectrum Light Meter, covering setup, operation. The handheld spectrum analyzer has a wavelength range of 380 to 780 nm and ensures accurate measurements for LED light tests with an exceptional spectral resolution of ± 0.1 . This versatile device features correlated color temperatures (CCT) from 1,000K to 100,000K.

Portable

Amazon .jp: Portable - HP320/HP330 Portable Spectrometer Spectrum Illuminometer, Color Temperature Meter Handheld Spectrum Analyzer 380-780nm (HP320) : Industrial & Scientific

HP320 Handheld Spectrum Analyzer 380-780nm Color Temperature

2.This spectrum analyzer supports comparison testing, transmittance testing, and parameter comparison in both rolling mode and lock mode 3. HP320 handheld spectrum with

HP320 Spectral illuminance meter color temperature

Elevate your lighting analysis with the HP320 Spectral Illuminance Meter, a portable spectroradiometer designed for precise LED color temperature readings.

Spectrometers, Light Spectrum Meter Color Temperature Tester HP320 ...

1. ****High Precision Measurement****: The Light Spectrum Meter Color Temperature Tester HP320 features a measurement range of 0.1-200K lx, ensuring accurate readings for various lighting

Light Spectrum Meter HP320/HP330 Portable Spectrometer Spectral ...

Light Spectrum Meter Tests Lux, Color Temperature, Color Rendering Index And Other Parameters, Can Output Excel And Print Reports Through PC Software. Versatile Applications

HP330 Spectrometer 380-780nm Light Colour Temperature Meter

HP330 Spectrometer 380-780nm Light Colour Temperature Meter Laboratory Spectrum Analyzers for CCT CRI Tests for Home, Plant Growth Lab (HP320)

HP-320 Portable Spectrum Color Illumination Meter Wave Long Finger ...

Brand: Two-Color Cloud Spectrum Model: HP320 Place Of Origin: Mainland China Province: Zhejiang Province City City: Hangzhou Color Classification: Hp320 Spectrum Illuminometer, Hp320 Spectrum

HP-320 Spectralilluminometer usermanual

Preface purchasing our HP-320 series products. This user manual contains all the functions, operation methods, safety regulations and other technical information of the listed instruments. To ensure the

HP320/330 Handheld-Spektrumanalysator 380~780 nm Hochpräzises

1. Der HP320/330 Handheld Spectrum Analyzer bietet Vergleichstests, Transmissionstests und Parametervergleiche sowohl im Roll- als auch im Locking-Modus 2. Mit seinen Timing

Spectrum Analyzer HP320/HP330 Spectrum color illuminometer 0.1

****Optimized for Field and Laboratory Use**** The HP320 Spectrum Analyzer is not only a powerful tool for field professionals but also an essential asset for laboratory testing.

Handheld Spectrum Analyzer High Precision Colour Temperature

The handheld spectrum analyzer has a wavelength range of 380 to 780 nm and ensures accurate measurements for LED light tests with an exceptional spectral resolution of ± 0.1 nm

HP320 Spectral illuminance meter light spectrometer spectrum analyzers ...

HP320 Spectral illuminance meter light spectrometer spectrum analyzers Color temperature tester, You can get more details about HP320 Spectral illuminance meter light spectrometer spectrum analyzers

HP320/330 Handheld Spectrum Analyzer 380~780nm High Precision

4. This innovative Handheld Spectrum Analyzer offers coefficient compensation for test results, accommodating various scenarios and environmental changes to ensure precision in your
