

High-quality manufacturer of trough-type cable trays

AI Overview

Aparna Rollform and Sanfeng Elec are among the reliable manufacturers of trough-type cable trays, offering durable, high-quality solutions for industrial and commercial applications. Recommended Manufacturers

1. Aparna Rollform Aparna Rollform specializes in a wide range of cable trays, including solid bottom (trough) trays, engineered for maximum protection against dust, moisture, and electromagnetic interference. Their products are suitable for sensitive fiber optic and data cables, clean rooms, and environments with high dust or corrosive elements. They use pre-galvanized, hot-dip galvanized, and powder-coated finishes, ensuring durability and compliance with international standards. Their modular design allows for flexible installation and easy maintenance, making them a trusted choice for complex electrical installations.
2. Sanfeng Elec Sanfeng Elec provides premium trough-type cable trays with a U-shaped profile, constructed from galvanized steel, stainless steel, or aluminum alloys. Their trays feature precision-engineered side rails, ventilated bottoms for heat dissipation, and modular elements for flexible configurations. These trays are widely used in manufacturing facilities, data centers, healthcare institutions, and industrial plants. Sanfeng emphasizes load-bearing capacity, corrosion resistance, and ease of installation, making their products reliable for both new construction and retrofit projects.

Key Considerations for Reliability When selecting a trough-type cable tray manufacturer, consider the following factors:

- Material and Finish:** Steel, stainless steel, aluminum, or FRP/GRP for corrosion resistance and strength.
- Certifications:** ISO 9001 for quality management, ISO 14001 for environmental compliance, and ISO 45001/OHSAS 18001 for occupational safety.
- Load Capacity and Deflection:** Ensure the tray meets your project's weight requirements.
