

# How much can a network server rack sell for

## Overview

In the US, a fully equipped rack can cost anywhere between \$15,000 and \$50,000 or more, depending on your requirements. This includes multiple servers, which may cost \$1,000 to \$5,000 each, along with storage systems and networking equipment like switches and routers. Market Scope: Global data center infrastructure market including retail hardware, hyperscale deployments, and. The good news is that network cabinet prices range from as low as \$100 for basic wall-mounted units to over \$3,000 for specialized outdoor models. However, understanding what drives these costs will help you make a smart buying decision. In this complete guide, we'll break down everything you need. The cost of a server rack in the US can vary widely depending on its size, build quality, and features. Entry-level racks, such as small wall-mounted units, typically range from \$200 to \$500.
