

How much does one meter of light industrial cable tray cover plate cost

Overview

The average cable tray price per meter ranges from \$2 to \$25, depending on material, type, size, and surface finish. For bulk orders or project pricing, the cost can be significantly lower. The main cost driver is the material used in manufacturing: Galvanized steel is the most common. A perforated cable tray with cover is an essential component in electrical infrastructure, providing secure support, protection, and organization for power, control, and communication cables. These trays are engineered with precision perforations that enhance ventilation, reduce weight, and prevent. Steel trays typically cost between \$5 to \$25 per meter. Steel trays provide an excellent balance between affordability and performance. Below is a detailed breakdown of the most common types of cable tray covers, their characteristics, and cost considerations to help you make an informed decision. Cable trays will tend to be significantly less expensive to use in 2026 than metal pipes due to their faster installation.
