

How to seal a trapezoidal cable tray and its price

AI Overview

The price of sealed trapezoidal cable trays varies widely depending on material, size, coating, and quantity, and typically requires a custom quotation from suppliers.

Pricing Overview

Sealed or fully enclosed trapezoidal cable trays are designed to protect sensitive cables from dust, moisture, and electrical interference, making them suitable for industrial, chemical, and high-corrosion environments .

Prices are influenced by several factors:

- Material:** Stainless steel and aluminum are common, with stainless steel generally costing more due to corrosion resistance .
- Coating:** Options include electro-galvanized, hot-dip galvanized, or powder-coated finishes, which affect durability and price .
- Dimensions:** Width, height, and length of the tray, as well as wall thickness, directly impact cost .
- Customization:** Special sizes, perforations, or additional shielding features increase the price .
- Quantity:** Bulk orders often reduce the per-unit cost, while small orders may be more expensive per meter .

Typical Price Ranges

While exact prices are not publicly listed due to customization, industry estimates suggest:

- Aluminum sealed trapezoidal trays: approximately \$25-\$50 per meter for standard sizes.
- Stainless steel trays: approximately \$50-\$120 per meter depending on thickness and finish.
- Galvanized steel trays: typically \$30-\$70 per meter.

These ranges can vary significantly based on supplier, shipping, and regional factors.

How to Obtain a Quote

Since sealed trapezoidal cable trays are custom products, the most reliable way to get an accurate price is to:

- Specify your requirements:** material, dimensions, coating, and quantity.
- Contact suppliers directly:** Companies like Shandong Hongfeng, Alibaba manufacturers, or specialized distributors such as Ekabel24 and RS Components can provide formal quotations .
- Request samples if needed:** Some suppliers offer free samples (excluding freight) t...
