

Huawei 7006 Core Switch

Overview

The S7700 series provide service optimization features like wired and wireless convergence, unified user management, quality awareness (iPCA), H-QoS, and unified security. They provide 100 GE ports, support SVF 2.0, and have superb scalability and reliability. The S7706 chassis is 10 U high (1 U = 44. Uses a fully programmable architecture. The Huawei ES0B00770600 is an enterprise-class S7700 series modular switch chassis designed for high-performance campus and aggregation networks. The price includes only the 1 × integrated chassis, and all additional components, such as main control boards, service modules, power supplies, and fan modules, must be purchased. Huawei S7706 AC bundle including assembly chassis ES0B00770600, 2xSRUA Main Board, 2x 800W AC power module Authorized Partner guaranteed or sourced from officially recognized partner.
