

Huawei All-Optical Switch Price Quote

AI Overview

Huawei optical switches range from approximately US\$200 to over US\$50,000 depending on model, port configuration, and features. Huawei optical switches are available in a wide variety of models and configurations, with prices varying significantly based on performance and capacity. Entry-level optical switches, such as the Huawei S5735-L24P4S-A1, are priced around US\$200 per set, offering 24 ports with 10/100/1000 Mbps and SFP support. Mid-range models like the S5735-L48T4X-A1 cost between US\$289 and US\$319 per piece, providing 48 ports and 10G SFP+ uplinks. High-performance data center switches, such as the CloudEngine S5736-S48S4X-D, feature 48 GE SFP ports and 4x10GE SFP+ ports, priced around US\$14,400 to US\$15,200. Enterprise-grade switches with advanced capabilities, including 25G, 40G, 100G, or even 400G ports, can cost US\$5,000 to over US\$50,000, depending on the model and included modules, such as the CE6865E-48S8CQ or CE8851-32CQ8DQ-PB. Pricing also depends on whether the switch is modular or fixed, supports PoE, or includes redundant power supplies and fan modules. For bulk procurement or project-based purchases, suppliers often provide discounted rates, and global shipping is available from authorized distributors. For the most accurate pricing, it is recommended to contact authorized Huawei resellers or distributors directly, as prices fluctuate based on region, availability, and configuration options.
