

Huijue High-End Fiber Optic Switch

AI Overview

Huijue specializes in high-quality fiber optic switches and components, offering customizable solutions for telecom, data centers, and FTTX networks. Company Overview Huijue Network Communication Equipment Co., Ltd, founded in 2001 and headquartered in Shanghai, is a leading manufacturer of telecom and communication products, including fiber optic switches, cables, adapters, and optical splitters . The company operates multiple production bases, including a 50,000-square-meter factory in Jiangsu for precise metal production and assembly of optical components . Huijue has a strong R&D and technical center, enabling the development of advanced fiber optic solutions for global markets, including Europe, North America, and Southeast Asia . Fiber Optic Switch Technology Huijue's fiber optic switches are designed to manage optical signal routing efficiently in complex network environments. These switches are used in telecom cabinets, data centers, and FTTX (Fiber to the X) deployments, allowing for flexible signal distribution, redundancy, and network optimization . The switches support single-mode and multi-mode fibers, and can be integrated with other optical components such as splitters, adapters, and connectors to create customized network solutions . Key Features High Reliability: Designed for continuous operation in telecom and data center environments. Customizable Configurations: Supports OEM/ODM services, allowing tailored solutions for specific network requirements . Scalability: Can be deployed in small-scale setups or large integrated networks. Compatibility: Works with a wide range of fiber optic components, including 12-core patch cords, optical splitters, and adapters . Global Standards Compliance: Products meet international quality standards for optical performance and durability . Applications Huijue fiber optic switches are widely used in: Telecommunication Networks: For routing and switching optical signals in central offices and distribution networks. Data Centers: To manage...
