

Huijue Metal Cable Tray Costs

AI Overview

Huijue metal cable trays typically cost between \$10 and \$50 per meter, depending on material, type, and finish. Estimated Price Range The cost of metal cable trays, including brands like Huijue, varies based on several factors:

- Material:** Galvanized steel trays are the most common and cost-effective, usually \$10–\$30 per meter, while aluminum trays are lighter and corrosion-resistant, ranging \$20–\$50 per meter. Stainless steel trays are more expensive due to higher corrosion resistance.
- Type:** Ladder trays are generally more expensive than perforated or wire mesh trays because they support heavier cable loads. Wire mesh trays are cheaper and suitable for lighter installations.
- Finish/Coating:** Hot-dipped galvanized (HDG) trays are more durable and cost more upfront, while pre-galvanized or powder-coated trays may be slightly cheaper.
- Length and Accessories:** Standard lengths are often 2–3 meters, and fittings like couplers, bends, and supports are sold separately, which can add to the total cost.
- Bulk Orders:** Ordering in large quantities or directly from manufacturers can reduce the per-meter cost significantly.

Cost-Saving Tips

- Compare suppliers:** Request quotes from multiple distributors or OEM manufacturers to find competitive pricing.
- Choose appropriate material:** For indoor or light-duty applications, pre-galvanized or perforated trays can save 10–20% compared to heavy-duty HDG trays.
- Plan fittings and accessories:** Include couplers, bends, and supports in your budget, as these are essential for installation and can affect overall cost.

Recommendation

For an accurate Huijue metal cable tray price, it is best to contact Huijue distributors or request a quote specifying the tray type, material, length, and any coatings or accessories required. This ensures pricing reflects your project's specifications and any bulk discounts.
