

Huijue Optical Port Switch Price Quote

AI Overview

The price of Huijue switch optical ports varies depending on configuration, quantity, and supplier, and is generally available through direct inquiry with Huijue or authorized distributors. Huijue Group manufactures a range of fiber optic and optical switch equipment, including network cabinets and optical ports suitable for data centers, smart cities, and enterprise networks. The cost of these optical ports is not publicly listed online, as pricing depends on factors such as the number of ports, type of switch (managed, unmanaged, or smart), and bulk order quantities. To obtain an accurate price: Contact Huijue directly via their official website or sales channels to request a quote for the specific optical port model you need. Check B2B platforms like Made-in-China or Tradewheel, where Huijue products are listed; prices are often negotiable based on order volume and destination. Consider additional costs such as shipping, taxes, and any required accessories like fiber connectors or network cabinets. Huijue optical switches are designed for high-performance networking, supporting features like PoE, VLAN segmentation, and Quality of Service (QoS), which may influence the price depending on the model and capabilities. For the most reliable pricing, it is recommended to submit a direct inquiry specifying the number of ports, type of switch, and delivery location to receive a tailored quotation from Huijue or an authorized distributor.
