

Is the broadband distribution box waterproof

Overview

With an IP65-rated waterproof design, the fiber distribution box is suitable for indoor and outdoor wall-mounted or pole-mounted installations, providing a reliable solution for fiber splice and distribution applications in FTTH network. These enclosures serve not only industrial applications but are also crucial for residential and commercial settings. Enclosure measures 9 inches wide by 9 inches tall by 4 inches deep. Continuous horizontal and vertical bosses give complete flexibility of mounting options. Heavy duty construction stands up to the elements year after year. Would you like. When selecting the best fiber optic distribution waterproof outdoor box for your network infrastructure, prioritize models with at least an IP65 rating, durable UV-resistant materials like ABS or polycarbonate, and sufficient internal space for splicing and cable management.
