

Lebanese Low-Voltage Complete Equipment Supplier

AI Overview

Maalouf Electric, Al Bonian Group, GEYA, Andre Group, and DOHO Electric are key suppliers of complete low-voltage equipment in Lebanon. Maalouf Electric is a leading Lebanese supplier offering a wide range of low-voltage electrical solutions, including products from over 20 international brands such as Famatel, AVE, IDE, BPT, Vemer, and Megaman. They serve industrial, commercial, and residential sectors and maintain a distribution network of over 700 electrical stores across Lebanon. Their offerings include switchgear, circuit breakers, relays, and control devices, with expertise in providing tailored solutions and technical support. Al Bonian Group specializes in low-voltage transformers, measuring transducers, earthing, and lightning protection systems. They supply American and British standard electrical steel conduits and design electrical infrastructure systems for buildings and installations. Their portfolio includes energy-efficient solutions, industrial electronics, automation technologies, and emergency lighting systems, making them a comprehensive provider for low-voltage applications. GEYA Electrical offers a comprehensive range of low-voltage products, including distribution boards, automatic circuit breakers, residual current devices (RCDs), load break switches, contactors, relays, timers, and push buttons. They also provide solar energy solutions such as panels, inverters, and batteries. GEYA products are widely used in industrial automation, residential electrical control, and PV energy storage, with a focus on cost-effective, high-quality, and intelligent technologies. Andre Group, founded in 1985, provides low- and high-voltage electrical products and integrates R&D, production, and sales. They offer intelligent power distribution systems, industrial IoT solutions, and power quality management devices...
