

List of Miniature Optical Splitter Manufacturers

AI Overview

Top manufacturers of high-quality miniature optical splitters include Hosecom Limited, YINGDA Technology, Shenzhen Spring Optical Communication, PPC Broadband, and T&S Communications. Leading Manufacturers Hosecom Limited is recognized for producing reliable fiber optic splitters suitable for both industrial and consumer applications, offering low insertion loss and compact designs. YINGDA Technology Limited specializes in miniature optical splitters with high precision and durability, often used in telecommunications and data center networks. Shenzhen Spring Optical Communication Co., Ltd. provides a wide range of optical splitters, including PLC and FBT types, with strong performance in FTTH and PON networks. PPC Broadband and T&S Communications focus on high-quality optical splitters for indoor and outdoor use, emphasizing stable signal distribution and low loss, making them ideal for professional network deployments. OptiWorks, HYC Co., Ltd, and Browave Corporation are also notable for their PLC splitters, offering compact, low-loss solutions suitable for 1x2 or 1xN configurations in both consumer and industrial setups.

Key Considerations When selecting a miniature optical splitter, consider:

- Splitter type:** PLC (Planar Lightwave Circuit) splitters are more compact and stable, while FBT (Fused Biconical Taper) splitters are cost-effective for smaller networks.
- Insertion loss:** Lower insertion loss ensures minimal signal degradation.
- Port configuration:** 1x2 splitters are common for home or small setups, while 1xN splitters suit larger networks.
- Durability and size:** Miniature splitters should be compact without compromising performance, especially for space-constrained installations.

Conclusion For the best miniature optical splitters, companies like Hosecom, YINGDA Technology, Shenzhen Spring Optical Communication, PPC Broad...
