

Low-priced cable trays for data centers in Eastern Europe

AI Overview

Affordable and standards-compliant cable trays for data centers in Eastern Europe are available from European suppliers like Ekabel24, DKC Europe, Eurotray, and global B2B marketplaces. Recommended Suppliers and Options

1. Ekabel24 Ekabel24 offers a wide range of cable trays, including hot-dip galvanized steel, stainless steel, and halogen-free plastic systems. Their products comply with DIN EN 61537 and international standards, making them suitable for data centers requiring safe and organized cable routing. Open cable trays provide better ventilation and easier access for future expansions, which is ideal for high-density server environments.
2. DKC Europe DKC Europe is a leading European supplier providing comprehensive cable tray systems for civil and industrial infrastructures. Their solutions include energy protection, transport, and distribution systems suitable for data centers. They offer a variety of tray types and accessories to support both power and data cabling.
3. Eurotray Support Systems Eurotray specializes in cable management systems designed for heavy cable loads, raised floor applications, and industrial hygiene requirements. Their products include trays, mounting supports, direction-changing parts, and fittings. Eurotray systems are particularly suitable for data centers, food manufacturing plants, and other high-density installations, offering turnkey solutions for practical cabling.
4. Global B2B Marketplaces Platforms like Tradewheel.com and manufacturers listed on B2B marketplaces provide customized and low-cost cable trays, including galvanized, fiberglass, and stainless steel options. These platforms allow buyers to compare prices, request custom sizes, and import directly to Eastern Europe, which can reduce costs for small to medium-sized data center projects.

Key Considerations for Data Centers
Material: Steel trays for heavy power cables, haloge...
