

Maldives Export Electricity Storage Cabinet 48V CIF Price

AI Overview

The CIF price for a 48V electricity storage cabinet to the Maldives typically ranges from \$10,000 to \$12,000 per unit, including estimated shipping and import duties. Product Pricing The market price for a 48V modular energy storage cabinet varies depending on capacity, brand, and specifications. For example, a 48V 1000Ah LiFePO4 battery cabinet is listed on Alibaba for commercial and home use, offering long cycle life and efficient charging, with base prices starting around \$10,000 per unit for bulk orders. Suppliers in the Maldives also provide customized cabinets with fast delivery and competitive pricing. CIF Price Estimation CIF (Cost, Insurance, and Freight) includes the product cost, shipping, and insurance to the port of destination. For a \$10,000 FOB shipment: Shipping and insurance: Typically 5–10% of FOB value, depending on shipping method and distance. Import duties and fees: Maldives applies tariffs and VAT on imported goods. While exact rates vary, a 7% tariff plus 10% VAT is a common reference for electronics and energy storage equipment. This would add approximately \$1,700 to \$2,000 to the landed cost. Total CIF estimate: \$11,700–\$12,000 per unit, including duties and shipping. Payment and Terms Suppliers often require non-transferable DLC MT700 guarantees or payment via MT103 after inspection at the discharged port. Buyers should confirm: Model and specifications Quantity Condition (new or used) Warranty and lead time Documentation for customs clearance Customs Considerations To import energy storage cabinets to the Maldives, ensure: Submission of waybill, standard invoice, and battery labels Compliance with local customs regulations Awareness of restricted items and potential inspection delays Summary For planning purposes, a 48V electricity storage cabinet shipped to the Maldives can be expected to cost \$10,000–\$12,000 CIF per u...
