

Malta butterfly drop fiber optic cable multimode directly supplied by manufacturer

AI Overview

Multimode butterfly drop fiber optic cables are available in Malta directly from manufacturers, offering high-performance FTTH solutions with customizable cores and durable LSZH sheaths.

Overview Butterfly drop fiber optic cables are designed for FTTH (Fiber to the Home) applications, featuring a flat or butterfly structure with a central optical fiber unit and parallel FRP (Fiber Reinforced Plastic) strength members for enhanced protection and stability. These cables are suitable for short-distance multimode transmission, typically used in LANs, data centers, and local network deployments.

Technical Specifications

- Fiber Type:** Multimode (OM4 50/125 μm) for high bandwidth and reliable short-distance transmission.
- Core Options:** Typically 1–12 cores, with additional configurations available on request.
- Insertion Loss:** Average ≤ 0.3 dB, Maximum ≤ 0.5 dB, ensuring minimal signal degradation.
- Return Loss:** UPC ≥ 45 dB, APC ≥ 50 dB for excellent reflection suppression.
- Temperature Range:** Operates reliably from -25°C to $+75^{\circ}\text{C}$.
- Durability:** Tested for mechanical stress up to 500 cycles, tensile strength $\geq 30\text{N}$, and water-blocking materials for moisture protection.
- Sheath Material:** LSZH (Low Smoke Zero Halogen), flame-retardant and safe for indoor use.
- Compatibility:** Supports G657A1, A2, and B3 fibers with 125 μm core and 250 μm coating.

Advantages

- Direct Manufacturer Supply:** Companies like Fibconet and OMC Cable provide factory-direct pricing and fast delivery in Malta.
- Easy Installation:** Lightweight, bendable, and reusable up to three times, reducing installation time and costs.
- High Performance:** Low-bend-sensitivity fiber ensures minimal signal loss and high bandwidth for FTTH networks.
- Customizable:** Fiber cor...
