

Metal Reinforcement of Cable Management Rack

Overview

Bulky reinforcement kits block airflow and cable channels, raising temperatures and complicating maintenance. Slim roll formed stiffeners maintain cooling performance and preserve cable accessibility. Cable racks (also called cable trays or cable support systems) are essential structural elements used in industrial plants, substations, commercial buildings, and infrastructure projects. A heavy duty cable rack represents an essential infrastructure solution designed to organize, support, and protect electrical cables in demanding industrial environments. Fits standard 19" racks and cabinets and is. DIP Galvanization after Fabrication eel manufactured according to BS 6946:1988. A continuous slot provides t gth: 3000mm with ± 3.0 mm] SI vie s type: 6H Mechanical Properties: class 6.

Article Content

Metal Master

Use these cable tidy management brackets to organize fiber optic cables, network cables, patch cables, power cables and more. M6*15 Screws 20pcs included. This high-performance metal patch cable

Cabinet & Rack Accessories
