

Middle East Anti-corrosion Cable Tray Prices

AI Overview

Anti-corrosion cable trays in the Middle East are available in FRP, stainless steel, aluminum, and hot-dipped galvanized materials, with prices varying by material, size, and supplier.

Material Options and Features

FRP (Fiber Reinforced Plastic) Cable Trays: Manufactured from glass-armored thermoset resins, FRP trays are highly resistant to corrosion, UV, and fire, and provide good electrical insulation. They are available in perforated and ladder types with a full range of fittings and accessories such as bends, tees, reducers, and clamps (Ferrotech, Dubai & Kuwait).

Stainless Steel and Aluminum Trays: These metal trays offer high load-bearing capacity and corrosion resistance, suitable for harsh industrial environments. They are available in ladder and perforated designs, with standardized fittings for easy installation and maintenance (Bonn Group, UAE).

Hot-Dipped Galvanized (HDG) Trays: These trays are corrosion-free due to the galvanization process and are widely used in industrial and commercial projects across the Middle East (Adhwa Al-Rawafid Electric Industries).

Supplier Options in the Middle East

Ferrotech: Offers FRP cable trays with complete accessories and custom sizing for industrial and commercial projects in Dubai and Kuwait.

Bonn Group: Supplies stainless steel, aluminum, and galvanized trays with a full accessory range for indoor and outdoor installations in UAE.

Al Ashoury Cable Trays: Provides bespoke solutions with advanced manufacturing technology, focusing on durability and reliability for harsh environments.

Adhwa Al-Rawafid Electric Industries: Specializes in corrosion-free HDG cable trays suitable for industrial applications.

Pricing Considerations

While exact prices are not publicly listed, factors affecting cost include:

- Material type (FRP, stainless steel, aluminum, HDG)
- Tray type (ladder, perforated, solid bottom)
- Size and load capacity
- Quantity and...
