

Mini-module cold aisle brands

AI Overview

Leading mini-module cold aisle containment brands include Legrand (Modulan), Tate, Vertiv, and Huawei, offering modular, scalable, and energy-efficient solutions for data centers. Key Brands and Solutions

1. Legrand – Modulan Legrand's Modulan brand specializes in modular aisle containment systems that retrofit existing cabinets from various suppliers. Their solutions feature custom aluminum frames, adjustable top covers, and standalone or integrated options, allowing flexible deployment without purchasing new racks. Modulan emphasizes efficiency, scalability, and security, with components manufactured to precise specifications based on 3D modeling of the data center layout.
2. Tate Global Tate offers Cold Aisle Containment (CAC) systems that capture cold air from CRAH or CRAC units via underfloor plenums. Their systems are pre-assembled with slide-lock frames, airtight gaskets, and customizable polycarbonate panels, ensuring quick installation and energy-efficient operation. Tate also provides Hot Aisle Containment (HAC) solutions, supporting air, liquid, and hybrid cooling environments.
3. Vertiv Vertiv's Aisle Containment systems are adaptable to both hot and cold aisles and can be deployed before or after rack installation, simplifying setup and scaling. Their solutions are free-standing and rack-independent, compatible with various cabinet heights, and include features like thermal drop-out panels for fire safety integration.
4. Huawei – FusionModule500 Huawei's FusionModule500 is a compact, small data center solution integrating UPS, cooling, and power systems. While primarily a modular data center, it includes cold aisle containment features suitable for branch offices or small-scale deployments, emphasizing high performance and energy efficiency.

Considerations for Selection

- Modularity and Scalability: Ensure the system can adapt to future expansion.
- Compatibility: Check if the containment system fits existing racks and cooling infrastructure.
- Energy Efficiency: Look for solutions that reduce cold/hot air...

Aisle Containment System | Eaton

SmartRack Aisle Containment System Want an easy way to improve cooling efficiency in your data center or server room? Eaton's SmartRack Aisle

Cold Aisle Containment | Legrand

Cold aisle containment creates an enclosed corridor in front of server cabinets, ensuring that the coldest air goes directly into equipment intakes. By isolating the cold aisle, containment reduces unintended

Tate Containment Systems for Hot and Cold Aisle

Explore Tate's modular containment solutions for data centers, including hot and cold aisle systems, hard roofs, doors, and custom partitions designed to improve

Buy Wholesale China Customized Integrated Micro

Buy China customized integrated micro device fusion module smart small modular data center rack oem from verified wholesale supplier new sunpln technology

Hot and Cold Aisle Containment Solutions Ardmac

Get expert hot and cold aisle containment solutions for your data centres with Ardmac. Our tailored approach maximises efficiency.

Aisle Containment | Vertiv Hot/Cold Aisle Containment

Find out how to improve your data center infrastructure efficiency, using the cold aisle containment or hot aisle containment solutions from Vertiv.

Hot & Cold Aisles Modular Containment Data Center

- Aisles module containment offers 3 modes: cold aisle containment, hot aisle containment, and cold & hot aisles containment. Aisle doors come in rotating

Why Modular Cold Rooms Are Revolutionizing Cold

Discover how modular cold rooms are transforming cold storage in 2025 with flexible design, smart tech, and sustainable solutions for every industry.

Containment

Our range of aisle containment provides cost-effective and energy-efficient solutions for maximising performance. Containment solutions from Tate reduce costs by increasing adaptability for future

Cold Containment | Legrand Data Center Solutions

Cold Containment Data centers opting for cold containment deliver cold air through a raised floor into the aisle. This air is contained in front of the cabinets, creating

Prefabricated Hot Aisle Cold Aisle Containment System Cloud Data

The Cold Aisle Containment system is a leading solution for intelligent digital network equipment, designed for high-performance data centers, enterprise IT rooms, and communication systems. Built

Cold Aisle Data Center Containment System Including Cooling

Cold Aisle Data Center Containment System Including Cooling System and UPS for Micro Module Data Center No reviews yet Jiangsu Datang Weishi Technology Co., Ltd. Custom Manufacturer

Modulan | Brands | Legrand Data Center Solutions English

Modulan aisle containment retrofits cabinets from various suppliers, offering custom aluminum frames and adjustable top covers for containment without buying new

Lepin Network | Cold Aisle Containment system

The aisle containment system is a modular rowbased thermal containment solution, which separates cold and hot data center air streams to and from equipment. It manages airflow at the source,

Mini Load AS/RS | Automated Storage

Daifuku's Mini Load Automated Storage and Retrieval System (AS/RS) provides fast, efficient storage and retrieval for small item containers or cases.

Mini-load AS/RS systems for smaller items storage

These systems are tailored for environments where speed, accuracy, and space optimization are paramount. Whether it's shuttle-based systems zipping through

Aisle Containment Systems | Modular Aisle

Aisle Containment strategically improves airflow management in data centres and helps optimise cooling systems. It physically separates the hot and cold airflow

Hot Aisle Containment | Legrand

Legrand hot aisle containment solutions optimize airflow, reduce energy consumption, and ensure peak performance for critical infrastructure. Hot aisle containment is the most common method for

AisleLok® Modular Containment

The AisleLok Sliding Doors offer data centers aisle-end containment in just minutes and without the need for contract labor. The tool-less design allows for quick and

Modular Cold Aisle System – Product Introduction and

Product Overview The modular cold aisle system is a core component of the micro-module data center, specially designed to meet the development needs of cloud

FusionModule500 Smart Modular Solution | Small Data Center | Huawei

Huawei FusionModule500 is a compact small data center solution for branch offices, integrating UPS, cooling & power systems to enable efficient, high-performance operations.

19 Inch Modular Design Cold & Hot Aisle Containment

19 Inch, Modular Design, Cold & Hot Aisle Containment Modular Data Center Product Application Modular Data Center is designed for equipment rooms,

Prefabricated Hot Aisle Cold Aisle Containment System 19 Inch Stock ...

Prefabricated Hot Aisle Cold Aisle Containment System 19 Inch Stock Cloud Data Center Micro-Module PSMS No reviews yet Jiangsu Datang Weishi Technology Co., Ltd. Custom Manufacturer

Hot & Cold Aisle Containment Systems For Data

Cool Shield™ products provide customers with versatile, turnkey aisle containment systems for new or existing critical spaces. Our offerings range from a single row

Automated Storage and Retrieval System

Automated Storage and Retrieval Systems (ASRS) are automatically Place and Retrieve Loads. We Manufactures Pallet ASRS System, Mini Load ASRS and Cold Storage Systems.

Aisle Containment | Modular Cleanroom & Data Center

Depending on your facility's layout, Armstrong Aisle Containment Solutions offer both Hot Aisle Containment (HAC) and Cold Aisle Containment
