

Nepal Micro-Module Data Center Solution

AI Overview

Nepal offers advanced micro-module and modular data center solutions through providers like Ncell, Subisu, and Data World, delivering scalable, energy-efficient, and Tier III/IV-compliant infrastructure. Overview of Micro-Module Data Centers in Nepal

Micro-module or modular data centers are compact, pre-fabricated, and scalable units designed to provide enterprise-grade computing, storage, and networking capabilities with high energy efficiency and rapid deployment. These solutions are particularly suitable for organizations seeking flexible, green, and resilient infrastructure without the need for large, traditional data center facilities.

Key Providers and Solutions

1. Ncell Data Center Operates three Tier III facilities in Lalitpur (Nakkhu IDC), Pokhara, and Hetauda, offering geographic redundancy and disaster recovery for enterprises across Nepal. Uses Oracle Private Cloud Appliance (PCA) X10, providing on-premises cloud infrastructure compatible with Oracle Cloud APIs. Features modular containerized POD design, enabling scalability, resilience, and rapid deployment. Implements a three-layer security architecture covering physical, service, and compute enclaves, with biometric access and encryption-at-rest.
2. Subisu Modular Data Centers Nepal's first large-scale modular data center in Baluwatar, Kathmandu, designed for eco-friendly, energy-efficient operations. Modular design allows compatibility, scalability, and waste/recycle management, integrating green building technologies to reduce carbon emissions. Offers turnkey solutions including design, installation, commissioning, and post-implementation support, suitable for government, financial, and enterprise clients.
3. Data World Operates Tier III certified, purpose-built data centers with 14+ strategic locations nationwide. Facilities are optimized for AI/ML workloads, high-density racks, and low-latency connectivity. Provides carrier-neutral colocation, private cloud, and enterprise-grade services, with modular and scalable infrastructure to grow with bu...

Kehua Provided Micro-module Data Center Solution for China

If the answer is yes, Kehua's modular data center solution would hit it off. A cloud data center built by a large Internet company which located in Nanjing, China, experiencing the real

Kathmandu Data Centers

Kathmandu Data Centers Below you will find locations of 9 data centers in Kathmandu, Nepal. To find other data center locations and colocation, cloud or

What are Modular Data Centers and How Can They Help?

Modular data centers are built from prefabricated modules that make up the building structure and systems such as the electrical, plumbing and

Micro Module Data Center Solutions Market Key Insights ...

The Micro Module Data Center Solutions Market is gaining significant traction due to the growing demand for modular, scalable, and energy-efficient data center solutions.

Micro Module Data Center Solution

Micro module data center SDC300-M solution is a rapid, efficient, convenient, intelligent management, integrated data center solutions that be released for fast demand of cloud computing,

Top Datacenters in Nepal: A Comprehensive Guide

WorldLink Data Center is a prominent datacenter in Nepal, renowned for its extensive range of services. It excels in offering colocation, cloud services,

Computing Services

Delta has achieved high applicability, rapid establishment, and high energy efficiency according to the requirements of China's telecommunication industry,

Nepal Modular Data Center Market (2025-2031) | Size & Value

The Nepal Modular Data Center market is expected to witness significant growth in the coming years due to increasing demand for scalable and cost-effective data storage solutions.

Smart Modular Data Center Solution

ZTT Micromodule data center is a new generation smart modular data center solution, which dedicated to providing customers with simple, efficient, and reliable data center solutions. It's a

Micro Module Data Center Solution

Data center productization, engineering productization, factory prefabrication, on-site quick installation, plug and play, shorten construction cycle by more than 50%; Overall design and delivery, avoid

Top 10: Modular Data Centre Companies | Data Centre

Discover the top 10 companies driving the future of modular data centres with innovative, scalable and sustainable infrastructure solutions

Nepal Data Centers

List of all Data Centers located in Nepal. Find any certified, power consumption, cooling redundancy, services and features for data centers in Nepal.

Micro Data Center

Micro Data Center Delta InfraSuite is a new generation, highly integrated modular datacenter solution. It uses racks as the datacenter carrier and fully integrates all

Coromatic International has delivered a prefabricated data center to ...

Coromatic has delivered the new data center as a turnkey solution. The company has taken full responsibility for the project from civil works and site preparation to delivery of a fully

The micro-module data center is so hot, how much do you know?

The impact of micro-module technology on the data center is profound, and it also puts higher demands on the technical and performance indicators of infrastructure products and solutions.

Cloud Himalaya | Tier 4 Datacenter Nepal | Fully

Cloud Himalaya's Colo, short for colocation, involves housing your servers in our secure data centers. This service ensures optimal reliability, security, and

Nepal Data Centers

We currently have 9 data centers listed, from 1 markets in Nepal (Federal Democratic Republic of Nepal). Click on a market below, to explore its data center locations.

FusionModule2000 Smart Modular Data Center | Huawei

Huawei FusionModule2000 is a versatile micro-module data center designed for small- to medium-sized enterprises, banks, governments, and healthcare,

Nepal Micro Data Centers Market (2025-2031) | Trends, Outlook

Market Forecast By Component (IT Equipment, Power & Cooling, Security Solutions, Services), By Rack Type (Standalone, Rack-Based, Containerized, Modular), By Enterprise Size (Small & Medium

Micro and Modular Data Center Construction

Micro and modular data centers offer businesses and organizations an agile, scalable, and cost-effective solution to meet growing IT demands. Whether you

FusionModule800 Smart Modular Data Center | Huawei

Huawei FusionModule800 offers an intelligent small data center solution, perfect for financial, government, healthcare, and energy sectors, combining compact
