

New Zealand network security equipment 200G

AI Overview

Fortinet FortiGate 200G and HPE Aruba 200G transceivers are key options for high-performance 200G network security and connectivity in New Zealand. Fortinet FortiGate 200G Firewall The FortiGate 200G series is a next-generation firewall (NGFW) designed for high-throughput enterprise networks. It combines AI-powered threat detection and machine learning to provide comprehensive security across applications, users, and devices before threats materialize. Key features include: Firewall throughput: 3 Gbps and VPN throughput: 6 Gbps, supporting heavy traffic with low latency. Security capabilities: Intrusion prevention, anti-malware, SSL inspection, DDoS protection, and Zero Trust Network Access (ZTNA) for secure user authentication. SD-WAN support: Simplifies hybrid IT network management while reducing risk. Scalability: Supports up to 5,000 concurrent SSL VPN users, making it suitable for large organizations. Connectivity: Multiple interface types including 1000Base-T, 10GBase-X, and USB 3.0 for flexible integration. Cloud management: Enhances performance and monitoring through Fortinet's cloud platform. The FortiGate 200G is available for purchase in New Zealand through local resellers such as PP.co.nz and PBTech. HPE Aruba 200G Networking Transceivers For high-speed network connectivity, HPE Aruba 200G SR4 QSFP56 MPO12 transceivers provide 200G optical links over multimode fiber (MMF) up to 100 meters. These transceivers are ideal for integrating into existing HPE Aruba switches and network infrastructure to support high-bandwidth applications. Pricing and availability require contacting authorized HPE resellers in New Zealand. Local Availability PP.co.nz: Offers FortiGate 200G appliances with detailed specifications and cloud-managed options. PBTech.co.nz: Stocks various firewall and security appliances, including limited unit...
