

# Nigerian Core Switch SFP

## AI Overview

SFP switches in Nigeria are available for both enterprise and campus networks, offering 1G and 10G fiber connectivity with managed and unmanaged options. Overview of SFP Switches in Nigeria SFP (Small Form-factor Pluggable) switches are essential for high-speed, scalable network infrastructure, allowing businesses to connect multiple devices over fiber or copper with modular flexibility. In Nigeria, SFP switches are widely available from vendors like RapidBTS, Jiji.ng, TNL Networks, and ONVCOM. They are suitable for core, aggregation, or access layers in enterprise, campus, or metropolitan networks.

**Core Switch Options** For core or aggregation networks, high-performance switches with 10G SFP+ uplinks are recommended. For example, the ONV58008-12TFM is a Layer 3 managed switch featuring 8 RJ45 ports and 12 1/10G SFP+ fiber ports, supporting advanced protocols like RIP, OSPF, BGP, and PIM-DM/SM. It provides 680Gbps switching capacity, IPv6, MPLS VPN, and redundancy features, making it ideal for smart campuses, large enterprises, and data-intensive applications.

**Features to Consider** When selecting a Nigerian SFP switch, consider the following:

- Port Type and Speed:** 1G SFP for standard fiber links, 10G SFP+ for high-bandwidth core connections.
- Managed vs Unmanaged:** Managed switches offer VLANs, QoS, traffic monitoring, and security features, while unmanaged switches are plug-and-play.
- PoE Support:** Some switches provide Power over Ethernet (PoE/PoE+) for powering devices like IP cameras and VoIP phones.
- Fiber Compatibility:** Single-mode or multi-mode fiber support depending on distance and infrastructure.
- Redundancy and Reliability:** Features like graceful restart, uninterrupted forwarding, and redundancy protection ensure minimal downtime.

**Vendors and Availability**

- RapidBTS:** Offers a range of SFP and SFP+ switches for Nigerian businesses, including managed and unmanaged models suitable for high-speed networks.
- Jiji.ng:** Lists hundreds of SFP switches from brands like Cisco, TP-Li...
