

Nordic Optical Cable Splicing Manufacturer

AI Overview

Key Nordic providers of optical cable splicing solutions include NorthLab Photonics, Norsk Fiberoptikk, Tech Optics, and Foss Fiber Optics.

NorthLab Photonics (Stockholm, Sweden) NorthLab Photonics specializes in advanced fiber optic solutions, offering custom fiber optic assemblies, splicing services, and training in fiber preparation and processing. They provide certified repair and support for 3SAE and FITELE equipment, ensuring high precision and reliability for industrial and research applications. Their facility in Stockholm also features cutting-edge tools like the 3SAE Lens Forming Station for high-volume manufacturing and specialized fiber end processing.

Norsk Fiberoptikk (Norway) Norsk Fiberoptikk focuses on fiber splicing, branching, and end termination for pull-throughs, splice cabinets, and masts. They exclusively use core-centering splicing machines to meet modern network requirements, ensuring high-quality joints and terminations for businesses with demanding bandwidth needs. Their services cover both mechanical and advanced splicing technologies.

Tech Optics (UK, serving Nordic region) Tech Optics manufactures and distributes fiber optic equipment and assemblies, offering custom cable assemblies, splicing equipment, and repair services. With over 35 years of experience, they provide ISO 9001:2015-certified solutions and training for harsh environments, supporting both industrial and telecom applications.

Foss Fiber Optics (Norway and Slovakia) Foss Fiber Optics delivers preterminated fiber optics, splice machines, and related components. They collaborate with major brands like Fujikura for splice machines and Corning for cables. Local production in Norway and Slovakia allows for fast delivery and flexible solutions, catering to both Nordic and international markets.

Summary These Nordic manufacturers and service providers offer a combination of...
