

Photovoltaic power module price quote

AI Overview

In 2026, European photovoltaic module prices range from approximately €0.060/Wp for low-cost modules to €0.145/Wp for high-efficiency full black modules, with mainstream modules around €0.115/Wp. Current Price Overview

High-efficiency modules: Average price is €0.130/Wp, reflecting a 13% increase month-on-month and a 4% rise year-on-year due to higher demand and commercial activity in China.

Full black modules: Average price stands at €0.145/Wp, up 11.5% over the past month.

Mainstream modules: Average price is €0.115/Wp, showing a 9.5% month-on-month increase.

Low-cost modules: Average price is €0.060/Wp, with a 9.1% increase compared to January 2026, though still down 7.7% year-on-year.

In Germany and broader Europe, glass-glass bifacial modules are priced around €150 per kWp, considered favorable by experts. Prices vary depending on technology (p-type vs. n-type), manufacturer origin, efficiency, and warranty conditions.

Market Trends and Drivers

Price rebound in 2026: After a record low in 2025, module prices have increased 4-5% month-on-month across most segments.

Technology impact: High-efficiency and bifacial modules command higher prices due to better performance and longer-term energy yield.

Supply factors: Despite declining silicon wafer costs, module prices have risen due to commercial strategies, trade policies, and demand recovery.

Geopolitical and raw material considerations: Potential increases in silver prices and reduced Chinese export incentives may further influence module costs in 2026-2027.

Practical Considerations

Residential vs. utility-scale: Small residential systems may experience slightly higher per-Wp costs compared with large-scale projects due to packaging and logistics.

Investment timing: Immediate investment in modern PV modules is often recommended, as energy savings and government incentives can outweigh potential future price reductions.

Customization and specifications: Modules with special formats, higher efficiency, or extended warranty...

Photovoltaikanlagen-Preise im Überblick

Jeder Typ muss in einem eigenen und aufwendigen Herstellungsverfahren produziert werden, daher variieren die Preise je nach Modultechnik. Durchschnittlich liegen die Endkundenpreise für PV

Most efficient solar panels 2025 — Clean Energy Reviews

Why is solar panel efficiency important? We explain the misconceptions around efficiency and list the most efficient panels from the

Solar price trend

With the historical contract price information in our database and capability of conducting fast and in-depth market analysis, EnergyTrend is equipped to provide both price trend and market intelligence

Global solar module prices mixed on varying demand

Global solar module prices mixed on varying demand expectations In a new weekly update for pv magazine, OPIS, a Dow Jones company, provides a

Photovoltaik Preisentwicklung: PV-Module Preisindex

PV-Preisindex: Preis Photovoltaik-Module, PV-Großhandelspreis €/Wp, aktuelle monatliche Entwicklung, Trends für diverse Solarmodulklassen.

Global module prices trend upward in Q2

Global module prices trend upward in Q2 In a new weekly update for pv magazine, OPIS, a Dow Jones company, provides a quick look at the main

Polysilicon Solar PV Price

All solar PV (Photovoltaic) real-time price update, such as Panle/Module, Inverter, Wafer, Cell, and poly / Silicon, and research reports.

PV spot price

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel

Solar photovoltaic panel prices

Solar photovoltaic module prices refer to the cost of the solar panel itself, and do not include installation or other system components. Prices are

Solar price trend

The module segment is being squeezed by weaker-than-expected market demand and rapidly declining production costs. As upstream cell prices have fallen sharply, cost support for module pricing has

Kosten von Solarmodulen 2025 | Aktuelle Preise & Überblick

Wie viel kosten Solarmodule 2025? Überblick über aktuelle Marktpreise pro Modul, m² und kWp – basierend auf über 50 Angeboten von Fachhändlern & Shops.

PV Price Trends | TrendForce

TrendForce provide weekly spot prices for key photovoltaic components by conducting cross-investigations with major suppliers and buyers

Latest Photovoltaic Module Prices 2024: Trends, Analysis & Industry ...

Why Photovoltaic Module Prices Matter in 2024 Solar energy adoption has surged by 34% globally since 2022, driven by climate commitments and cost reductions. But here's the catch: photovoltaic module

Solar Module Prices 2025: Complete Guide To Current Costs & Trends

Comprehensive guide to solar module prices in 2025. Current costs, market trends, buying strategies, and price forecasts. Updated with latest data.

PV Price Trends | TrendForce
