

Pop-up wire extended

AI Overview

Pop-up outlets can be extended using built-in extension cords, longer wiring, or extended flanges for easier installation. Built-In Extension Cords Many pop-up outlets come with integrated extension cords, typically around 6 feet, allowing flexible placement from a nearby wall outlet. For example, the ANNQUAN pop-up outlet includes a 6-foot 16AWG extension cord, enabling the unit to be installed on countertops or desks while maintaining power access without additional wiring modifications. Similarly, the Legrand Pop Up Tower features a 6½-foot cord for convenient furniture installation. Extended Flanges for Installation If your pop-up outlet needs to fit a larger hole or requires a more secure mount, extended flanges are available. The Lew Electric SF-NS-PUR2 stainless steel flange extends the PUR2 series pop-up outlet to fit a 4.25-inch opening, allowing installation in a 4-inch hole while maintaining stability and aesthetics. Retractable and Hidden Designs Pop-up outlets are designed to retract when not in use, keeping surfaces clean and organized. Units like the ANNQUAN and Legrand Pop Up Tower feature spring-loaded mechanisms that allow the outlet to pop up automatically when pressed and retract when finished, hiding the outlets and USB ports beneath the surface. This design works well with extended wiring, as the cord remains safely routed under the desk or countertop. Installation Tips Core a hole in your furniture or countertop according to the outlet's specifications (e.g., 3.15" or 4" depending on the model). Route the extension cord to a nearby wall outlet, ensuring it is not pinched or bent sharply. Secure the flange or mounting ring from below to stabilize the pop-up unit. For multiple devices, consider outlets with USB-A, USB-C, and AC ports to reduce the need for additional adapters. By combining built-in extension cords with extended flanges and proper installation, you can effectively extend the reach of pop-up outlets while keeping your workspace organized and safe.
