

Portuguese optical communication integrated tester manufacturer

Overview

Viscom SE develops and sells systems for automatic optical inspection (AOI) and X-ray inspection (AXI/MXI) for electronics production worldwide. Vision-Box is a technology company that specializes in innovative biometric solutions, including advanced technologies like face recognition, iris scanning, and fingerprint identification, which are crucial for enhancing security and efficiency in travel and border control. Their expertise in. These equipments enable 40 Gbit/s BER test and measurement, generation and measurement of optical pulses at 160 Gbit/s, measurement of complex optical spectrums, measurement and analysis of transfer functions of optical components, DWDM test beds, high power optical amplification, on-wafer test. The Optical Communications Laboratory of IT is suitably equipped to perform transmission experiments in Radio-over-Fibre systems and in up to 25 GHz optical networks by using external and direct modulation. Particularly, the laboratory is equipped with a Tektronix Arbitrary Waveform Generator at 24. Institutoptico is a specialized manufacturer and service provider in optics, offering a diverse range of products including glasses, frames, sunglasses, and contact lenses. With over 35 years of experience and a strong presence in Portugal and the Azores, the company focuses on enhancing visual. Address Line 1: Parque Industrial Solvay - Armazém 3 - 1º. AndarScience4you is a company that develops, produces, distributes and commercializes scientific/educational toys. Image to Text Copyright © 2015-2026 listcompany. List of Optical Instruments Companies in Lisboa.

Article Content

Inspection Systems for the Electronics Industry | Viscom

Viscom SE develops and sells systems for automatic optical inspection (AOI) and X-ray inspection (AXI/MXI) for electronics production worldwide.

VIAVI Solutions | Network Test, Monitoring, and Assurance

Our test, monitoring, assurance, and resilient position, navigation and timing solutions enable and secure critical infrastructure ranging from data center ecosystems and communication networks to

Fibre Optic Tester, FTTH Mini OTDR with Optical Power Meter, Stable ...

The FTTH Mini OTDR with Optical Power Meter is a highly efficient and multifunctional fiber optic test device specially designed to meet the needs of professionals in the

Semiconductor & System Solutions | Infineon Technologies

Infineon Semiconductor & System Solutions - MCUs, sensors, automotive & power management ICs, memories, USB, Bluetooth, WiFi, LED drivers, radiation h

Advanced Photonics Solutions

Unique photonics components, light sources and integrated solutions for LiDAR, navigation, sensing, imaging and adjacent applications.

List of Optical Instruments Companies in Lisboa, Portugal

List of Optical Instruments Companies in Lisboa, Portugal . Suppliers, Distributors, Manufacturers, Importer. Include SCIENCE4YOU SA .

DIMENSION

1.6T/800G MPO Optical Module Testing Solution 1.6T/800G Optical Module Aging Test Solution 1.6T/800G High-Speed Optical Module Testing 1.6T/800G LC

Top Fiber Optic Cable Manufacturing Companies in Portugal

When exploring the Fiber Optic Cable Manufacturing industry in Portugal, several key considerations emerge. The regulatory environment is crucial, as companies must adhere to EU standards and local

Laboratory Optical Communications

The Optical Communications Laboratory of IT is suitably equipped to perform transmission experiments in Radio-over-Fibre systems and in up to 25 GHz optical networks by using external and direct

Top 38 Optics Manufacturers in Portugal (2026) | ensun

Discover all relevant Optics Manufacturers in Portugal, including Institutoptico and Prooptica SA

Official Juniper Networks Blogs | Insights and expertise

Hier sollte eine Beschreibung angezeigt werden, diese Seite lässt dies jedoch nicht zu.

Integrated Network Tester Manufacturer, OTDR Test, Optical Test ...

Shenzhen Zhepu Technology Development Co., Ltd. is mainly engaged in the R & D, production and sales of communication test instruments, and acts as an agent for international advanced

Handheld Fiber Optic Test Equipment

Kingfisher's handheld fiber optic test equipment is used across hyper-scale data centers, enterprise, service providers, aerospace, defense and industrial networks.

Resolve a DOI Name

Type or paste a known DOI name exactly—including its prefix and suffix—into the text box below and then "submit" to resolve it.

Portuguese English 9 in 1 PON FTTH Special OTDR Optical Power

About 9 In 1 OTDR Optical Power Meter This product falls under the category of Fiber Optic Equipment within the broader Telecommunications industry, designed to support the deployment, testing, and

Optics Manufacturer/producer Portugal | B2B companies and suppliers ...

We are a small company dedicated to the production of genuinely Portuguese terracotta, handcrafted while preserving the manufacturing process of ancient ceramicists.

Portugal

Country: Portugal Address Line 1: Rua da Retirada, nº10 G Casal de Touro – Barrocalvo Address Line 2: 2540-329 Bombarral Postal Code: Phone No: +351 752 12 50 Fax: Customer Service No:

Fiber Optic Tester Kit FTTH Mini OTDR with Optical Power Meter

Shop Fiber Optic Tester Kit FTTH Mini OTDR with Optical Power Meter Stable Light Source Active Fiber OTDR Fibre Tester Portuguese 1550nm 50km Test Dist (1550nm Portuguese). Free delivery on

OEM Optical Communication Device Tester for Custom Solutions

Find reliable OEM optical communication device tester solutions with custom features. Click to explore top-rated suppliers offering customization, competitive pricing, and fast delivery.

Optical Fiber Sensor Technology in Portugal: Fiber and Integrated ...

A general overview of the R& D activity in fiber optic sensing developed over the last fifteen years in Portugal is given. Different topics are addressed, including interferometric, intensity

MPO Portable Integrated Tester

Portable and Integrated Design: The MPO Portable Integrated Tester is a feature-packed tool designed to simplify fiber testing. Its compact, lightweight construction allows for easy portability and efficient

Fibreglass Tester Kit FTTH Mini OTDR with Optical Power Meter

The FTTH Mini OTDR with Optical Power Meter is a highly efficient and multifunctional fiber optic test device specially designed to meet the needs of professionals in the

Testing Strategies for Next-Generation Optical Interconnects: Co ...

W H I T E P A P E R This paper discusses industry trends in Integrated Photonics and how market participants are adapting to test and mass produce next-generation optical interconnects in a cost

Laboratory Optical Communications

Lab 3 is a brand new lab for optical components manufacturing and testing. The main equipments are a high power pulsed UV laser, high precision positioning devices and two climate chambers.

Top 14 Optical Sensor Manufacturers in Portugal (2026) | ensun

Discover all relevant Optical Sensor Manufacturers in Portugal, including Vision-Box and PLUX Biosignals

PerkinElmer | Science with Purpose

We believe in the power of science to transform our world. Together with scientists and operators worldwide, we empower progress by providing trusted insights and services that accelerate work and

Top Test And Measurement Companies In Portugal In 2026

They also provide technical support, training, and consultation services to their clients, helping them to improve their products' quality, reliability, and safety. Some of the leading test and measurement

Instituto de Telecomunicações

The Integrated Circuits and Systems laboratory is equipped with general purpose measurement equipment for circuit characterization, including network and spectrum analyzers, logic analyzers,

MAY121 MPO Portable Integrated Tester

MAY121 MPO Portable Integrated Tester Description: MAY121 MPO Portable Integrated Tester integrates the basic functions of MPO testing, including optical

Top Fiber Optic Telecommunications Companies in Portugal

Key takeaway FastFiber is the largest fiber optic wholesale operator in Portugal, having a significant national fiber optic network that supports the growth and development of telecommunications services.
