

Price List for Galvanized Ladder Cable Trays in Mexico

AI Overview

Galvanized ladder cable trays in Mexico typically range from \$2 to \$25 per meter, depending on material, coating, size, and supplier.

Overview of Galvanized Ladder Cable Trays

Galvanized ladder cable trays are made from steel sheets coated with zinc through a hot-dip galvanization process, providing corrosion resistance and long-term durability in harsh environments. They feature two parallel side rails connected by transverse rungs, allowing excellent airflow to prevent cable overheating and ensuring efficient cable management. These trays are widely used in industrial plants, commercial buildings, power distribution systems, and construction projects.

Typical Pricing

Price per meter: \$2 to \$25 USD, influenced by material type, tray size, and surface finish.

- Hot-dip galvanized steel:** Most common, balancing durability and cost.
- Ladder trays:** Higher cost than perforated or wire mesh trays due to their ability to support heavy cable loads.
- Bulk orders:** Can reduce the per-meter cost significantly.
- Fittings and accessories:** Priced per piece, including bends, tees, and reducers, typically based on standard lengths of 2.4 meters.

Suppliers in Mexico

- Brilltech Engineers Pvt. Ltd.:** Offers high-quality galvanized ladder cable trays with customization options for size, length, and material. Their trays are designed for quick installation, corrosion resistance, and robust structural strength.

Local distributors: Many Mexican suppliers provide galvanized ladder trays with pricing dependent on order volume, delivery location, and installation requirements.

Cost Considerations

- Material:** Galvanized steel is standard; stainless steel or aluminum options are more expensive.
- Coating:** Hot-dip galvanization (HDG) is more durable but costs more upfront than pre-galvanized steel.
- Installation:** Labor, equipment, and site conditions can add to total project costs.
- Shipping:** Heavier trays increase transport...
