

Price List of Carbon Steel Cable Trays

AI Overview

Carbon steel cable trays typically range from \$15 to \$100 per meter, with brackets costing \$5 to \$20 each, depending on size, type, and coating. Cable Tray Pricing The cost of carbon steel cable trays varies based on several factors:

- Type of tray: Ladder trays, perforated trays, and wire mesh trays differ in price. Ladder trays are generally more expensive due to higher material use and load capacity, while wire mesh trays are lighter and more cost-efficient.
- Size and load capacity: Wider trays or those designed for heavy-duty industrial use cost more. Standard widths range from 100 mm to 600 mm, with prices increasing for larger dimensions.
- Coating and finish: Hot-dip galvanized trays are more expensive than plain carbon steel due to corrosion protection. Electro-galvanized or powder-coated finishes also add to the cost.
- Supplier and bulk orders: Prices can vary by supplier and quantity. Bulk purchases often reduce the per-meter cost.

Typical price ranges:

- Standard carbon steel ladder or perforated trays: \$15-\$50 per meter
- Heavy-duty or hot-dip galvanized trays: \$50-\$100 per meter
- Wire mesh or basket trays: \$20-\$60 per meter

Bracket Pricing Brackets and supports are essential for mounting trays and maintaining structural integrity. Their cost depends on size, material, and load rating:

- Small or standard brackets: \$5-\$10 each
- Heavy-duty or adjustable brackets: \$10-\$20 each

Additional Considerations

- Installation costs: Labor and hardware can add 20-40% to the material cost.
- Customization: Custom lengths, bends, or modular systems may increase the price.
- Environmental factors: Outdoor or corrosive environments require coated or stainless steel options, which are more expensive.

For accurate pricing, it is recommended to request quotes from multiple suppliers such as Alibaba, RS Components, CEF, or local distributors, specifying tray type, size, coating, and quantity.
