

Price of 510 Flat Cable Tray

AI Overview

The price of a 510 flat cable tray varies depending on material, finish, and supplier, typically ranging from \$20 to \$100 per meter for standard steel or galvanized options. Factors Affecting Price:

- Material:** Cable trays can be made from pre-galvanized steel, hot-dip galvanized steel, stainless steel, or aluminum. Stainless steel and aluminum are generally more expensive due to corrosion resistance and durability.
- Tray Type and Size:** A "510 flat" tray likely refers to a 510 mm width flat tray. Wider trays or those with perforations for ventilation may cost more.
- Finish and Coating:** Hot-dip galvanized trays are more resistant to corrosion than pre-galvanized trays, which can increase the price.
- Standards Compliance:** Trays meeting BS EN 61537, NEMA, or IEC standards may carry a premium due to quality assurance and certification.
- Supplier and Quantity:** Prices vary by supplier and order volume. Bulk purchases often reduce the per-meter cost. Suppliers like Alibaba, Ekabel24, CEF, and Eurostrut offer quotes on request.

How to Obtain Accurate Pricing:

- Request a Quote:** Contact suppliers directly with specifications (width, material, finish, length) to get precise pricing.
- Compare Suppliers:** Check multiple vendors for competitive pricing and delivery options.
- Consider Accessories:** Include bends, joints, and supports in your budget, as these can add to the total cost.

In summary, while a 510 flat cable tray typically costs between \$20 and \$100 per meter, the exact price depends on material, finish, standards compliance, and supplier. For a precise quote, it is recommended to contact suppliers directly with your project specifications.
