

Price of 96-core B4 optical cable

AI Overview

The price of a 96-core B4 optical cable varies widely depending on type, specifications, and order quantity, typically ranging from \$1 to \$5 per meter for bulk purchases, with armored or specialized cables costing more.

Factors Affecting Price

Cable Type: Single-mode cables (9/125 μ) are designed for long-distance transmission and generally cost more than multimode cables (50/125 μ or 62.5/125 μ) used for shorter distances in data centers or campus networks.

Armoring and Jacket: Steel-armored or plenum-rated cables, suitable for indoor/outdoor or industrial environments, add to the cost due to enhanced protection against moisture, rodents, and physical damage.

Bulk Orders and OEM Customization: Ordering in large quantities or specifying custom features (length, core arrangement, jacket type) can reduce the per-meter cost. Direct factory sourcing often provides the most competitive pricing.

Installation and Additional Features: Cables with micro-armor, water-blocking yarn, or UV-resistant jackets may have higher upfront costs but reduce installation complexity and long-term maintenance expenses.

Typical Price Ranges

Standard 96-core multimode cable: Approximately \$1–\$2 per meter when purchased in bulk.

Single-mode 96-core armored cable: Around \$3–\$5 per meter, depending on specifications and supplier.

Indoor/outdoor plenum-rated or micro-armored cables: Can exceed \$5 per meter due to specialized construction and durability features.

Purchasing Recommendations

Request Quotes: Contact suppliers directly (Alibaba, Made-in-China, Fiber4U, CISFiber) to obtain precise pricing based on your project requirements.

Compare Specifications: Ensure the cable meets your network needs (distance, bandwidth, environmental conditions) before finalizing the purchase.

Consider Total Cost: Factor in installation, conduit, and protective measures, as higher-quality cables may reduce overall project costs despite higher unit prices.

By considering these factors, you can select a 96-core B4 optical cable...
