

Price of Figure-8 Bundled Optical Cable

AI Overview

Figure-8 optical cables typically range from \$0.50 to \$3 per meter depending on fiber count, specifications, and supplier. Overview of Pricing The cost of Figure-8 optical cables varies based on fiber count, construction type, and environmental features. For example, an 8-core GYTC8S self-supporting outdoor cable with armored steel wire and water-blocking features is priced around \$1.50-\$2.50 per meter for standard lengths, suitable for aerial installations. Higher fiber counts or additional protective features, such as corrugated steel tape armor, can increase the price to \$2-\$3 per meter. Wholesale and OEM options allow for bulk discounts, especially for large-scale deployments, which can reduce the per-meter cost significantly. Prices also vary by supplier and region, with online marketplaces like Alibaba offering competitive rates for factory-direct purchases.

Factors Affecting Cost

- Fiber Count:** More fibers per cable increase material and manufacturing costs.
- Construction:** Armored or self-supporting designs with steel messengers are more expensive than simple duct cables.
- Environmental Resistance:** Water-blocking, UV resistance, and crush-resistant features add to the price.
- Length and Bulk Orders:** Longer runs and bulk purchases reduce the per-meter cost.
- Supplier and Brand:** OEM or branded cables may cost more but offer guaranteed specifications and quality assurance.

Typical Applications

Figure-8 optical cables are widely used for aerial fiber deployment, rural broadband, 5G backhaul, and campus networks. Their self-supporting design allows spans of hundreds of meters without additional hardware, making them cost-effective for long-distance installations.

Summary

For most standard 8-24 fiber Figure-8 optical cables, expect prices between \$0.50 and \$3 per meter, with armored, self-supporting, or high-fiber-count cables at the higher end. Bulk orders and OEM sourcing can reduce costs, while specialized environmental features may increase them. Always confirm with suppliers for current quotes and shipping costs to get pr...
