

Price of anti-corrosion lighting distribution boxes in Nigeria

AI Overview

Anti-corrosion or weather-resistant distribution boxes in Nigeria typically range from ₦55,000 to over ₦250,000 depending on material, IP rating, and supplier. Price Range and Suppliers

Entry-level boxes: Single-phase SPN or TPN distribution boxes made from ABS or polycarbonate with basic IP44/IP54 protection are available from online marketplaces like Jiji starting at around ₦55,000.

Mid-range corrosion-resistant boxes: Stainless steel or UV-resistant plastic boxes with IP65/IP66 ratings suitable for outdoor or harsh environments are priced between ₦120,000 and ₦200,000, depending on the number of ways/modules and current rating.

Premium or industrial-grade boxes: ATEX-certified or fully anti-corrosion stainless steel boxes for hazardous or industrial zones can exceed ₦250,000, often supplied by specialized vendors like Industry Safety Nigeria.

Key Factors Affecting Price

- Material:** ABS, polycarbonate, galvanized steel, or stainless steel; stainless steel and UV-resistant plastics are more expensive due to durability and corrosion resistance.
- IP Rating:** Higher ingress protection (IP65/IP66) for outdoor use increases cost.
- Number of Ways/Modules:** More circuits or larger capacity boxes cost more.
- Certifications:** Compliance with IEC 61439-2, SONCAP, or ATEX standards adds to the price, especially for industrial applications.
- Supplier and Brand:** Trusted brands like Havells, Himel, Schneider Electric, or ABT often charge a premium for quality and warranty.

Buying Tips

- Verify the IP rating and material to ensure corrosion resistance for outdoor or humid environments.
- Check compatibility with DIN rails, MCBs, RCCBs, and cable entry points.
- Consider bulk orders for volume discounts and reduced shipping costs.
- Ensure suppliers provide warranty and test reports for dielectric strength and impact resistance.

In summary, for anti-corrosion lighting distribution boxes in Nigeria, exp...
