

Price of dangling cable tray support

AI Overview

Dangling cable tray supports typically range from \$10 to \$50 per unit, depending on type, material, and load capacity.

Overview Dangling cable tray supports, also known as hanging stems, ceiling stems, or suspension brackets, are used to suspend cable trays, ladders, or trunking systems from ceilings or overhead structures. They are essential for industrial plants, commercial buildings, data centers, and vehicle conversions, providing secure, organized, and accessible cable routing while protecting cables from mechanical damage and improving airflow.

Types and Materials Profiles: U-profile, I-profile, or C-channel, each offering different load capacities and installation flexibility. Materials: Typically steel (zinc-plated or stainless) for corrosion resistance, with some lightweight options for wire mesh trays.

Accessories: May include trapeze brackets, cantilever arms, or perforated stems for adjustable height and load distribution.

Pricing Factors The cost of a dangling cable tray support depends on several factors:

- Load capacity:** Supports rated for heavier cable loads cost more.
- Length and profile:** Longer stems or specialized profiles (I or C-channel) are more expensive.
- Material and finish:** Stainless steel or corrosion-resistant coatings increase price.
- Supplier and brand:** Premium brands like Legrand, Schneider Electric, or Phoenix Contact may charge higher prices.

Typical Price Range

- Light-duty supports: \$10–\$20 per unit (suitable for small cable trays or office installations).
- Medium-duty supports: \$20–\$35 per unit (common in commercial or industrial settings).
- Heavy-duty supports: \$35–\$50+ per unit (for large cable trays, high load, or harsh environments).

Additional Considerations Threaded rods, nuts, and washers are often sold separately and may add \$2–\$5 per support. Bulk purchases may reduce unit cost.

Compatibility: Ensure the support matches the cable tray width and type (solid-bottom, ventilated, or ladder tray) for safe installation. For precise pricing, it is recommended to check suppliers like Ekabel24, RS Component...
